Metal Phonk Solid

Rise of the Phonk

Prepared By:
Alexander Brown

Last Updated:
4/30/24

guarded by other automatons emplaced there by the Lord of the Tendies, the dictator of Fort Fridge. Your only option is to sneak inside and retrieve the fabled chicken tendies using whatever wit their programmed into you. Once your mission is complete your memory will be wiped and you will be returned to factory settings.

Character	Description	Characteristics	Misc. Info
<div>Character Name</div> <div></div>	Automaton	No personality. Traits: sneaky, yellow	N/A

Gameplay Mechanics

Character Attributes	
Character	Movement Abilities / Actions Available
Name of character	<p>Player: Yellow automaton that must sneak around the enemy goon automatons</p> <p>Enemy goon automatons: Red automatons that will run towards the player if they see them and kill them immediately if they touch them. They will move towards sounds the player makes to investigate them.</p>
Game Modes	
Game Mode / Difficulty Name	<p>Objective: Obtain the fabled chicken tendies.</p> <p>Obstacles/enemies: Enemy Automatons.</p> <p>Progression: The player must find and obtain the fabled chicken tendies to progress.</p>
Scoring System	
Points/Coins/Stars/Grades/Etc.	How it's Awarded & Benefits
List the scoring attribute	Finding the tendies in the level allows the player to progress to the next level.

Level Design

Levels	
Level name and/or pic of it	The game will have 3 levels: Dungeon, Halls, and Rooftops. Dungeons: Difficulty: Hard Halls: Difficulty: Medium Rooftop: Difficulty: Easy
	

Game Aesthetics & User Interface

The player is a yellow automaton, which isn't great for stealth but certainly looks cool. He has a masculine build and white laser hair, also not great for stealth. The enemy "goon" automatons are red and have the same masculine build but without all the stealthiness. The art style is low-poly to allow for quick rendering and minimalistic models that will simplify the process of reading enemy types.

There is no UI apart from the start screen and the pause button in the upper left hand corner.

It is simple black text on a gray background, a simple approach to remind the player of the bleak, cold state of a world devoid of chicken tendies.

Schedule & Tasks

List the tasks that need to be completed along with the basic timeline to complete them by. The task list can be as detailed as you like to fit your studio's needs. The table below can be substituted for the excel file. This table is a great start, but the tasks should be much more detailed.

(This is for demonstration only, a real GDD will include this content. You are never required to fill this chart.)
